

Statement of Commitment to Child Safety

Educators, volunteers and committee members of
Yarraman Oaks Primary Kindergarten

August 2022

 We deeply respect each child's right to make decisions and choices that influence their learning and wellbeing. We believe in empowering each child to speak up and be heard.

 Elevating the voices of children and families in relation to their safety and well-being is an ongoing priority. We are dedicated to supporting the cultural safety of our community members and have engaged in the process of developing a Reconciliation Action Plan.

 We value and support diversity, inclusion and equity, and do not tolerate discriminatory practices. We understand the value of facilitating positive relationships, a welcoming environment and happy experiences as protective factors for child safety and well-being.
